Empty metal paint and aerosol cans.

Latas vacías de pintura y aerosol.

By recycling, you are helping

- 1 Provide a better environment for your children and future generations
- 2 Remain an environmental leader in the region
- 3 Meet the state mandated recycling goal.

Don't trash a good thing! Recycle it!

PLEASE Don't Combine Recyclables With Trash!

Recyclables that are contaminated must be disposed of as trash, defeating the whole purpose of recycling!

¿Qué pasa cuando usted recicla?

- 1 Provee un mayor medio ambiente para los niños de hoy y mañana.
- 2 Ayuda a que se establezca como líder de iniciativas que protegen y mejoran nuestro medio ambiente.
- 3 Pone su parte para que esta ciudad obedezca un mandato del gobierno estatal que ordena reciclar un alto porcentaje de desechos.

No deseché algo bueno. ¡Recíclelo!

¡No ponga basura en el contenedor para reciclar!

Cuando un contenedor para reciclar se contamina con basura todos los artículos que contiene deben ser desechados como basura. Eso termina con el propósito y esmero que muchos ponemos al reciclar.
